EMERGING SOLUTIONS, INC SPINS-OFF HEALTHFLASH, INC AND ANNOUNCES NEW PRESIDENT AND CEO FOR HEALTHFLASH, INC.

Alpharetta, GA – Emerging Solutions, Inc. an Alpharetta based ASP solutions company has announced they have spun-off their healthcare division, HealthFlash effective February 28. HealthFlash, Inc main product is an ASP application for project management for the healthcare industry. This application assist healthcare organizations track projects and maintain accreditation by review agencies. They will be headquartered in Alpharetta. Emerging Solutions is a successful ASP developer with a product for the construction industry, Constructw@re.

HealthFlash, Inc also announces the hiring of David H. Smith as President and CEO. Mr. Smith joined HealthFlash on April 1 and will be responsible for the strategic direction of the company. Mr. Smith has over 20 years experience in the healthcare industry mainly within the Managed Care sector. He was previously CEO of Blue Care Network in Michigan as well as CEO of the Midwest Division of HealthSource Inc. based in Indianapolis. Mr. Smith came to Atlanta in 1997 as a Vice President for the Kaiser Foundation Health Plan, Southeast Division. Most recently he was Vice President of Development for International Radiology Group based in Dallas Texas. “I am really excited to be apart of this team. When I first saw this product I was very impressed with the functionality of the product”, said Mr. Smith. “This type of tool can really bring together the management team within any organization to provide accountability of tasks and products ”.

HealthFlash has emerged as an Internet solution to bring about an efficient health care system. Whether the health care system is a hospital, a physician hospital organization (PHO), health maintenance organization (HMO) or an independent provider association (IPA), HealthFlash brings real world software solutions to senior management through tools to better understand their organization and to more efficiently manage the organization.

HealthFlash based in Alpharetta, Georgia, is a web-based project information manager that promotes collaboration and accountability among team members of health care systems by creating, tracking and logging all information related to projects, indicators, tasks, meetings and documents. The product also allows organizations to track projects and documents in order to comply with accreditation standards for their industry. It is an application service provider (ASP) model with all the information kept on the server securing all information for only the appropriate personnel to view.

HealthFlash was founded by Emerging Solutions, Inc; an Atlanta based Internet Solutions Company with a successful product for the construction industry. HealthFlash was spun off from Emerging Solutions on February 28, 2000. Clients for HealthFlash include: Children's Healthcare of Atlanta, VHA of Georgia, St. Jude Children's Research Hospital of Memphis and Kaiser Permanente of Georgia.
